Will Offer Reduced Fee Arrangement: ☒ Yes ☐ No Case-by-case basis			
Additional Comments: I am enjoying 32 years solely practicing in the area of family law. I have litigated cases for the 30 years of my practice and now focusing my practice on mediation and parenting coordination. I have a substantial "library" of client and family experiences as an advocate, which informs my interaction and approach to parents of all types. I have completed numerous hours of professional education, including the Parenting Coordination Training, with the goal of increasing my "toolbox" of skills necessary to successfully improve and redefine family dynamics specifically related to Parenting Plans and decision making for children. I am direct and focused on the developmental needs of children and the challenges they face when their parents are not respectful of each other and have trouble working as a team. My belief is that almost all parents want the best for their children and some just need a little (or a lot of) guidance on how to reduce conflict and increase listening skills as they navigate post-court issues and the importance of putting their children first. Additional Comments: I have been committed to providing parenting coordination services for over 20 years that help parents focus on the needs of their children and assist them in learning strategies to avoid conflict in the future. I have completed over 46 hours in Parenting Coordination training, have provided training for other professionals, and conducted research through University of Missouri on the practice to improve the process in our state. Services start with signing an appointment order designating the parenting coordinator that is handled by the parties' attorneys and the judge, and then a contract for services with our office for parenting coordination. These steps are followed by meetings with each parent separately so that I can get to know the children, the family, and assess the areas where conflict occurs. Services are tailored for each family based on the needs and the dynamics of the situation. We do limit the number of cases with current appointments, so please contact our office to make sure we are accepting additional cases before entering an appointment order.
